| No of participants           | : | Around 150 students of SE, TE & BE  |

### • Objective of the Event

The main objective of the Industrial Visit to Govardhan Eco-Village (Solutions Towards Sustainability)” was to motivate and enhance the knowledge of students about the sustainable environment.

### • Brief information about the Event

Information technology and Information Technology Student Association (ITSA) of the Department of Information Technology, Shree L.R. Tiwari College of Engineering organized an Industrial Visit to “Govardhan Eco-Village (Solutions Towards Sustainability)” The students were acknowledged with the importance and uses about the sustainable environment. Govardhan Eco-Village is an award-winning sustainable farming and eco-tourism project located in Wada, Maharashtra, India. It is situated in the foothills of the Sahyadri mountain range and covers an area of about 100 acres. The eco-village aims to promote sustainable living practices and the conservation of nature, while also providing an immersive experience of rural India.

During an industrial visit to Govardhan Eco-Village, students learnt about sustainable farming practices, eco-friendly building techniques, waste management, and renewable energy systems. Students also interacted with the local community and gain insights into their way of life.

The eco-village offers various programs and workshops on sustainable living, such as organic farming, composting, and natural building. Visitors can also take part in activities like nature walks, bird watching, and yoga sessions.

Overall, industrial visit to Govardhan Eco-Village provided valuable insights into sustainable living practices and the efforts being made to promote eco-friendly lifestyles.

• Outcome of the Event: The students were acknowledged with the importance and uses about the sustainable environment.
