## Letter of Intent

**Subject:** Letter of Intent for setting up **Development Center at SLRTCE in Association with Lab Systems (I) Pvt. Ltd.**

### CONTEXT

The grand Success of technical institute is driven by autonomy, accountability, and the availability of sustainable financing. Infrastructure improvements and the creation of centers of excellence serve as amplifiers. Educational attainment and student placement are process factors that are driven by the introduction of new programmers and their licensure, advancement in academic quality, research output, and improvement in the performance of academically underachieving students. The success metric for Higher Education Technical Institutes concentrates on Industry Link through consulting, whereby HEIs will engage Industry in addressing current issues. As of now, we are working the opposite way around with the industry providing us with knowledge dissemination in seminars, and workshops and aiding the institution by participating in various collegiate panels.

After ten months, the maturity has evolved with the following clear understanding:

- A solid collaboration amongst instructors and learners is vital, where the faculty leverages their in-depth conceptual knowledge of the subject to investigate the problem at hand and provide a clear road map for accomplishing the project's objectives.
- Students are incredibly quick to adopt the advance technology and provide businesses with innovative solutions.

### PROPOSAL

This document proposes the establishment of a development center for Lab Systems India Pvt. Ltd (LSIPL) to cater to a wide range of business projects in a bid to move from an informal to a formal method of managing industrial projects.

### OBJECTIVES

The development centre aims to

- Provide the trainees a workstation where they can partake in current initiatives.
- Provide SLRTCE students the opportunity to become involved in internships.
- Provide a solid technical knowledge base by educating students about the various cutting-edge technologies that businesses need.
- Create various initiatives based on hardware or software that are required by the industry and offer consulting services to businesses and other academic institutions.

  
PRINCIPAL

Shree L. R. Tiwari College of Engineering  
Kanakiya Park, Mira Road (E).

### **DEVELOPMENT CENTRE MANAGER'S PURPOSE**

The Development centre manager will function as the single point of contact (SPOC) and report directly to the institution's director of operations (developmentcenter). Identification of resources, project discussions, and resource provision fall under the purview of the management.

- make sure that participants come from various academic departments of the college
- knowledge sharing among students in the event that final-year students are involved.
- The management and representatives from the industry will conduct routine joint project reviews.
- The management should choose the resources and organize the training session in the case of training assignments.

### **STUDENT'S RESPONSIBILITY**

- The pupils are obligated to work on the project in accordance with the directions provided by the centre management and industry.
- Speak with the industry directly while keeping the manager informed.
- An effective on boarding procedure to ensure commitment for the duration of the project's life cycle.
- For successful information transfer, students are essential to provide hand holding to the junior batch.

### **THE ONBOARDING PROCEDURE**

PRINCIPAL  
Shree L. R. Tiwari College of Engineering  
Kanakiya Park, Mira Road (E).

- The project's paid internship would pay the students Rs. 5000.  
Example: If Company XYZ provides 7 projects for centre development and an average of 3 students are needed, then  $7 * 3 * 5000 = 1,05,000$  Rs. is the cost of the students and 2,10,000 Rs. is the project's overall cost.
- The industry must bear any additional costs if the project's scope is expanded. After the project is finished, the centre will help the industry maintain it for a year by charging a 20% royalty/maintenance fee of the product's real selling price.

### **Projects Identified**
