1.	2021-22	INTERNATIONAL WOMEN'S DAY CELEBRATION

NAME OF ACTIVITY: **INTERNATIONAL WOMEN'S DAY CELEBRATION**

Description:

Women are strong, powerful and invincible. With thousands of mantras encouraging women's existence every day, a special day is indeed a necessity to celebrate women's achievements in all aspects of life. Whether she's a teacher, homemaker, economist, engineer or pioneer, women have been making the world a better place with their infinite strength, determination and belief. With power enough to shatter the shackles of patriarchy, women are rising above societal hurdles every single day, making them a stronger force to reckon with, in modern times.

This International Women's Day, we are celebrating and rejoicing the social, economic, cultural and political achievements of women all over the world. The day also marks a call to action for accelerating gender parity. As all women come together, significant activity is witnessed worldwide to celebrate women's achievements or rally for women's equality.

Every year, March 8 is celebrated as International Women's Day. This year, the goal is to create a gender-equal world. It is about celebrating a woman's success and raising awareness against bias. So we all should choose to 'challenge' to bring the change. The hashtags for this year are #ChooseToChallenge and #IWD2021.

History:

It was during 1908 that there was an ongoing critical debate amongst women regarding their oppression and inequality. The campaign for change started to become more vocal when 15,000 women marched through New York City demanding shorter hours, better pays as well as voting rights. In 1909, the first Women's Day was observed across the United States. In 1910, an International conference of working women was held in Copenhagen. That's where the idea was proposed by Clara Zetkin, a leader of the Women's Office for the Social Democratic Party in Germany. In 1911, International Women's Day was honoured for the first time in Austria, Denmark, Germany and Switzerland on 19 March. Between 1913 and 1914, women in Russia observed their first

Women's Day on February 23. Later, it was decided that March 8 can be the globally accepted day to celebrate IWD. International Women's Day was celebrated for the first time by the United Nations in 1975.

Celebration:

To commemorate this occasion, the SLRTCE ISREW Committee organised a Teachers Day Event on March 8, 2021 (during the University of Mumbai's Mid-Term Break). Our ISREW committee members gave a brief speech on Women's Day at the start of the programme. We gave roses to our teachers and Maushi as a token of our appreciation, grace, and joy that they bring into our lives in various ways. Then some amusing activities were planned, such as a round of humorous questionnaires for all of the teachers. It was a lot of fun and the teachers enjoyed learning new things about each other. Finally, Mr. Rahul Oza sang a song for the lovely ladies up there, and the programme was effectively concluded in this manner.
