ABOUT FOSSEE

FOSSEE (Free/Libre and Open Source Software for Education) project promotes the use of FLOSS tools to improve the quality of education in our country. We aim to reduce dependency on proprietary software in educational institutions. We encourage the use of FLOSS tools through various activities to ensure commercial software is replaced by equivalent FLOSS tools.

FOSSEE CLUB

FOSSEE Club in our institution that will promote and contribute to the various activities of the FOSSEE project. The club can also participate in FOSSEE workshops, conferences apart from these activities subject to that the event is based on any one of the software promoted by the FOSSEE Project.

BENEFITS OF FOSSEE

1. Get recognised as a FOSSEE club
2. Collaborate with various activities of the FOSSEE project
3. Get your contributions displayed on FOSSEE website
4. Proficient student contributors get direct entry to a relevant job fair hosted by the FOSSEE project annually
5. Preference to the proficient student contributors in FOSSEE Summer Fellowship
6. Receive an annual certificate of recognition by FOSSEE for significant contributions
7. Get NAAC accreditation by participating in FOSSEE activities

SLRTCE is part of FOSSEE CLUB

PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kanakiya Park, Mira Road (E).

What is a FOSSEE Club? +

FOSSEE Club is any institution that will promote and contribute to the various activities of the FOSSEE project. The club can also undertake events apart from these activities subject to that the event is based on any one of the software promoted by the FOSSEE Project. You also have to get prior approval for the event from the FOSSEE Project. For more details on this please refer to the rules and regulations section given below. The club may also have to contribute to the development of open-source software through FOSSEE.

How can my institute become a FOSSEE Club? +

Please see the details of the activities given in this page: <https://fossee.in>. After a substantial contribution to the FOSSEE Project, as 'per' the criteria given below, they can become a FOSSEE Club by signing the Expression of Interest.

Criteria for becoming a FOSSEE Club (any 3 or more):

- A. 10 TBC in Scilab / R / OpenModelica etc
- B. 5 LM in Scilab / R / OpenModelica / OpenFOAM etc
- C. 5 No of case studies in OpenFOAM / Scilab / R
- D. 10 No of Circuit Simulation in eSim
- E. 10 No of Flowsheets / Custom models in DWSIM and OM
- F. 5 workshops on Python

EVENTS CONDUCTED

1. Conducted One day workshop on "Open source Technologies" on 20th December 2022

Time:-9:30 am onward

Venue:- FC Kohli Auditorium, IIT Bombay

This event aim to create awareness about open source software, their benefits and how one can contribute to the open source community. This event is exclusively to faculty of Mumbai University to exposure to various open source software of different steams.

Shree L. R. Tiwari College of Engineering, Mira Road in collaboration with the FOSSEE Project, IIT Bombay, announces the one day event

Workshop on Open Source Technologies

OpenModelica, QCIS, FLC, FCAI, fee, R

To register Scan the QR code

Date: 20 December 2022 | Time: 9:30 AM onward
Venue: F C Kohli Auditorium, IIT Bombay

This event aims to create awareness about open source software, their benefits and how one can contribute to the open source community. We shall be having expert talks, demos and discussions.

Takeaways

- Exclusively for the faculty members of Mumbai University
- Exposure to various open source software
- Awareness regarding the use of open source software
- Participation certificates

For queries, please contact Ms. Madhuri Kadam

2. Conducted 3 Days Online workshop on the basics of CFD

Date:-11,12,13 January ,2023

Time: 10:00am to 5:00pm

Con The objective of the course is to train students/college teachers/design professionals to solve computational fluid dynamics (CFD) problems while understanding the intricacies involved in such simulations through a robust at the same time easy to use CFD tool box.

At the end of this workshop, participants will:

- learn how to set up, view the files and run a case in OpenFOAM
- become familiar with pre-processing tools and will be able to generate mesh, set the boundary & initial conditions, learn simulation control etc.
- learn how to plot and visualize the results in ParaView.
- learn how to use different flow and heat transfer models (laminar, turbulence model, convection, conduction etc) in a simulation.
- also learn how to establish grid independence.

Benefits of Workshop

On successful completion of the workshop, participants will be able to

- Learn fundamentals of CFD using OpenFOAM
- Learn to simulate flow and heat transfer problem in OpenFOAM
- Learn essentials of post-processing
- Certificate for attending the 3 day OpenFOAM workshop

Teaching faculty

- **Prof. Janani Srree Murallidharan**, Faculty, Mechanical Engineering, IIT Bombay
- **Prof. Manaswita Bose**, Faculty, Energy Science Engineering, IIT Bombay
- **FOSSEE**, IIT Bombay
- **Prof. Harikrishnan**, Cochin University of Science and Technology
- **Prof. Dhiraj Garg**, Shiv Nadar University
- **Prof. Raghavendra Gupta**, IIT Guwahati
- **Prof. Naren**, Sastra Deemed to be University

How to apply:-The application will be strictly online, and no other mode of application will be entertained. The link for online registration is:

Report of Workshop

Title of the Session: "Open source Technologies"

Date: 20th December 2022

Timings: 9:30 am onwards

Venue: FC Kohli Auditorium, IIT Bombay

Number of participants: 32

Speaker and Designation: Dr.Kannan M Moudgalya and FOSSEE Team

Objectives:

- 1) To create awareness about the Open source tools used for different streams.
- 2) To provide knowledge about scope and competencies of open source tools in the Engineering programme.
- 3) To know the open source tool capabilities in Research.

Target Groups: EXTC ,COMP and IT Faculties from all colleges under Mumbai University

Knowledge acquired during the seminar:

The introductory remark was given by Prof. Kumar Appaiah (EE, IIT Bombay). He enlightened the audience on the importance of Free/Libre Open Source Software and its capabilities. Dr. Deven Shah, Principal, SLRTCE addressed the participants and insisted on the need for such a workshop. Prof. Madhu Belur (EE, IIT Bombay) addressed the participants about the FOSSEE project in detail; gave some real life examples and stressed on the importance of using Free/Libre Open Source Software in academia. FOSSEE team then gave an insight on various open source tools like Osdag, Scilab and eSim and also took the Hands-on training on these softwares. Mr. Nagesh and Mrs. Firuzza delivered a session on Arduino on cloud and esim on cloud. Mr. Rajesh Khushalkar (Sr. Manager FOSSEE) spoke about various Open Hardware

PRINCIPAL

Kanakiya Park, Mira Road (E).

initiatives of the FOSSEE project. Dr. Subbhulakshmi (VIT University, Chennai) delivered a session on 'Incorporating open source software in academics and improving NAAC credits'

Prof. Inderjit Dhanjal (K. J. Somaiyya College, Mumbai) and Mrs. Madhuri Kadam (SLRTCE) explained the benefits of contributing to the FOSSEE project.

Lastly the audience was addressed by Prof. Kannan Moudgalya (P.I. FOSSEE)

Outcomes of seminar:

- To create awareness about the Open source tools.
- To provide knowledge about scope and competencies of open source tools in the Engineering programme.

ATTENTION

"Workshop for Students"

We are pleased to inform you that, Department of Electronics And Telecommunication is organizing a workshop on "eSim- An Open Source EDA Tool" on 29th July 2022 in association with IETE Students Forum and FOSSEE IITB by Mrs. Madhuri Kadam, Assistant Professor, Shree L.R. Tiwari College of Engineering, Mira Rd.

The objective of this seminar is to motivate and enhance capabilities of students by providing guidance about the Open Source EDA tool in Academia and Research.

All the students of SE EXTC are informed to attend the workshop.

Details of the workshop are:

Narrative Report of Seminar

Title of the Session: eSim- An Open Source EDA Tool

Date: 29th July 2022

Timings: 3:00pm-5:00pm

Venue: Lab 410

Number of participants: 17

Speaker and Designation: Ms. Madhuri Kadam, FOSSEE Club Collaborator, SLRTCE

Objectives:

- 1) To introduce students with open source EDA tool "eSim" developed at FOSSEE IITB
- 2) To enable students to use the software to perform Analog and Digital Simulation

Target Groups: EXTC/ECSS students

Knowledge acquired by the seminar:

eSim (previously known as OScad / FreeEDA) is a free/libre and open source EDA tool for circuit design, simulation, analysis and PCB design. It is an integrated tool built using free/libre and open source software such as KiCad, Ngspice, Verilator, Makerchip, and GHDL. eSim is released under GPL.

eSim offers similar capabilities and ease of use as any equivalent proprietary software for schematic creation, simulation and PCB design, without having to pay a huge amount of money to procure licenses. Hence it can be an affordable alternative to educational institutions and SMEs. It can serve as an alternative to commercially available/licensed software tools like OrCAD, Xpediton and HSPICE.

Hence Workshop was conducted for the benefit of students By Department of Electronics and Telecommunication in association with IQAC under the guidance of our Principal Dr. Deven Shah.

Ms. Madhuri Kadam started the session with an introduction to various open source tools developed by FOSSEE IITB. She took hands on one example of Analog circuit which involved plotting of response of RC circuit and one on Digital circuit simulation that involved making the

digital circuit in eSim and simulating it to verify the truth table. The emphasis of the workshop was to make students familiar with the eSim tool environment.

Outcomes of seminar:

- To create awareness about the eSim - Open source EDA tool.
- To provide knowledge about scope and competencies of tools in the Electronics and Telecommunication Engineering programme.
- To provide knowledge about the usage of tools to carry out Analog, Digital and Mixed mode simulations.

DEPARTMENT OF ELECTRONICS AND TELECOMMUNICATION

Workshop Proposal

TO,
The Principal,
SLRTCE, Mira Road (East),
Mumbai - 401107.

Subject: Permission for conducting a workshop on "eSim- An Open Source EDA Tool" for faculties and students

Respected Sir,

I, Prof. Mrs. Aboli Moharil, Head of Department of Electronics And Telecommunication, SLRTCE, would like to take your permission on behalf of the department for conducting a **one day workshop** on "eSim- An Open Source EDA Tool". We are conducting this workshop keeping in mind the objective to motivate and enhance capabilities of Faculties and Students by providing guidance about the Open Source EDA tool in Academia and Research.

Below are the tentative details of the event: -

Title of Workshop: eSim- An Open Source EDA Tool

Planned Date: 22nd July 2022 (Friday) for Faculties (EXTC and ECS)

29th July 2022 (Friday) for Students

Duration: 2 hours

Target audience: Faculty members, SE and TE students

Venue: 410

Name of the Speaker with designation: Mrs. Madhuri Kadam, Assistant Professor, Shree L. R. Tiwari College of Engineering.

PRINCIPAL

Shree L. R. Tiwari College of Engineering
Kanakia Park, Mira Road (E).

Shree Rahul Education Society's (Regd.)
SHREE L. R. TIWARI COLLEGE OF ENGINEERING
Kanakia Park, Near Commissioner's Bungalow, Mira Road (East), Thane 401107, Maharashtra
(Approved by AICTE, Govt. of Maharashtra & Affiliated to University of Mumbai)
NAAC Accredited | ISO 9001:2015 Certified
Tel. No.: 022-28120144 / 022-28120145 | Email: slrtce@rahuleducation.com | Website: www.slrtce.in

Objectives of Workshop:

- 1) To create awareness about the eSim - Open source EDA tool.
- 2) To provide knowledge about scope and competencies of tools in the Electronics and Telecommunication Engineering.
- 3) To provide knowledge about the usage of tools to carry out Analog, Digital and Mixed mode simulations.
- 4) To know the tool capabilities in terms of Research.

Mapping with PO:

PO2	Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
PO3	Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
PO4	Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
PO12	Recognize the need for, and have the preparation and ability to engage an independent and life-long learning in the broadest context of technological change.

(Approved by AICTE, Govt. of Maharashtra & Affiliated to University of Mumbai)
NAAC Accredited | ISO 9001:2015 Certified
Tel. No.: 022-28120144 / 022-28120145 | Email: slrtee@rahuleducation.com | Website: www.slrtee.in

Mapping with CO:

ECL301.4	Students will be able to perform experiments to gather appropriate data.
ECL302.2	Design and implement combinational circuits like adder, subtractor, multiplexer, code converters etc.
ECL302.3	Identify and understand working of various types of flip flops and their inter conversions.
ECL302.4	Design and implement basic sequential circuits such as counters, registers etc.
ECL302.5	Acquire basic knowledge of VHDL basic programming.

Expected Outcomes:

Faculties and students will be able to understand:

- 1) Usage of tool in various courses of Electronics and Telecommunications Engineering
- 2) Capabilities and Competencies of eSim with respect to other proprietary softwares.
- 3) Scope of eSim tool to carry out research in related areas.

Yours sincerely,

Moharil

Expression of Interest in becoming a FOSSEE Club

Date: 7 March 2020

Shree L. R. Tiwari College of engineering expressed interest in becoming a FOSSEE Club.

The first FOSSEE PROPONENT SYMPOSIUM was organized by FOSSEE, IIT Bombay on 7 March 2020. Based on the discussions and the brainstorming sessions conducted during the symposium, this institute is willing and confident to contribute towards the below mentioned activities to promote Free/Libre Open Source Software in collaboration with the FOSSEE project funded by National Mission on Education through Information and Communication Technology (ICT), Ministry of Human Resource Development (MHRD), Government of India.

Activities to be undertaken by the FOSSEE Clubs (Any four)

1. Minimum of 5 lab migrations in any one (1), or a combination of FLOSS, namely, R, Scilab, eSim, DWSIM, CFD (OpenFOAM), Openmodelica, QGIS and Osdag.
2. A minimum of ten (10) Flowsheets in DWSIM / OpenModelica or 10 Circuit simulations in eSim or five (5) Case Studies in CFD (OpenFOAM)/ Scilab / R.
3. Encouraging neighboring institutes to participate in activities listed in points 1 and 2, above.
4. Inviting neighboring colleges for Spoken Tutorial based workshop (a minimum of four (4) workshops per year).
5. Interfacing hardware with software, eg: Scilab-Arduino (already done by FOSSEE).
6. Providing a cloud version for any of the FLOSS, hosting infrastructure will be provided by FOSSEE.
7. Creating Spoken Tutorials on new FLOSS or advanced series for existing FLOSS.
8. Development of FLOSS like creating toolboxes in Scilab, fixing bugs, etc.

Benefits of becoming a FOSSEE Club:

1. Get recognised as a FOSSEE club
2. Collaborate with various FOSSEE activities
3. Get your contributions displayed on FOSSEE website

Shree L. R. Tiwari Educational Campus, Mira Road (East), Thane - 401 107, Maharashtra.

Proposal for Partnership with the Mumbai University

The FOSSEE Project offers training in FLOSS (Free/Libre Open Source Software) to students and teachers from all streams of education. This project is a part of the NMEICT (National Mission on Education through Information & Communication Technology). It is being developed at IIT Bombay and is funded by the MoE, Govt. of India. We envision partnering with Mumbai University and offering the students, teachers, and colleges with numerous benefits.

Offerings for students:

1. Internship opportunities in open source software: Internship is compulsory as per the AICTE norms. It holds credit points for the college as per the NAAC and NIRF ranking (explained in point no.4). It is also an opportunity for the students to enhance their skills by working with the software under the guidance of experts to get recognition and increase their chances of getting hired.

We give below sample of project openings for internship for students with different backgrounds.

- a. Category 1 - Internship opportunities for IT and CS department students

Sr.no	Internship task
1	Scilab on Cloud performance enhancement
2	OpenFOAM GUI development
3	DWSIM development
4	Osdag development
5	Adding features to eSim
6	eSim on Cloud development
7	Arduino on Cloud development
8	Xcos on Cloud development
9	Osdag on Cloud development
10	Tutorial creation infrastructure

26

PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kanakiya Park, Mira Road (E).

b. Category 2 - Internship opportunities for other departments

Sr. No	Internship tasks	Department name
1	Adding components to the device library of eSim.	Electronics and allied fields
2	Designing Microcontrollers using Verilog in eSim	Electronics and allied fields
3	Adding sub circuits	Electronics and allied fields
4	Implementing the IFC (Industry Foundation Class) file format in Osdag using scripting language/libraries in Osdag	Civil / Mechanical Engineering
5	Creating case studies using OpenFOAM	Mechanical Engineering
6	Creating instructional material on FreeCAD, the FLOSS alternative to AutoCAD	Mechanical Engineering
7	Creating flowsheets on DWSIM	Chemical Engineering

c. Category 3 - Internship opportunities for all.

Sr.No	Internship Task
1.	Creation of infographics using FLOSS tools
2.	Creation of Spoken Tutorials* on various FLOSS

* Please visit <https://spoken-tutorial.org> for more details.

2. Department-wise Lab migration: Migrating to open source lab is extremely important in academic institutions. The use of FLOSS in the lab will improve the levels of work of both students and faculty. It also has the potential to save a lot of money for the institutions. The table given below explains that open source software can be used alternatively for different proprietary software.

[Signature]
PRINCIPAL
 Shree L. R. Tiwari College of Engineering
 Kanakya Park, Mira Road (E).

Department name	Proprietary software likely to be used	Open source equivalent to be used
Mechanical Engineering	Fluent	OpenFOAM
Electronics and allied fields	Pspice / Eagle / MultiSim / LTSpice /Orcad, etc	eSim
For hardware		OpenPLC Arduino
Chemical Engineering	ASPEN Plus	DWSIM
Civil Engineering (for steel structures)		Osdag
For all departments	Matlab	Scilab
For all departments	SPSS	R
For all departments		OpenModelica
For Graphics and animations	Maya and 3D Max	Blender
For Graphics and animations	Adobe photoshop	GIMP
For Graphics and animations	CoreIDRAW	Inkscape

3. Python Learning through workshops

For all AI and ML learning, Python knowledge is a must. FOSSEE conducts Python workshops with proper tests and awards graded certificates in Python

Offering for Colleges:

4. NAAC credit points

The table is given below explains how one can incorporate FOSSEE activities into the curriculum. This shall benefit the institution in improving the NAAC credits. The NAAC credit points for under various categories are given below.

Criteria 1: Curricular aspects	Weightage	Activities of FOSSEE which
--------------------------------	-----------	----------------------------

PRINCIPAL
 Shree L. R. Tiwari College of Engineering
 Kanakiya Park, Mira Road (E).

		can be included
Curricula developed and implemented have relevance to the local, national, regional, and global developmental needs which are reflected in Programme Outcomes (POs), Programme Specific Outcomes(PSOs), and Course Outcomes(COs) of the Programmes offered by the University	20 Marks	Lab migration, internship program, last year projects, case study project.
Average percentage of courses having focus on employability/ entrepreneurship/ skill development offered by the University	10 Marks	FOSSEE Niche activities contribution, FOSSEE Summer Fellowship, FOSSEE Semester-long internships, Hackathons, Mapathons and Marathons
Percentage of students undertaking field projects/research projects/internships	5 Marks	The FOSSEE Fellowships and the Semester-long internships, Spoken Tutorial content development
Criteria 2: Teaching-learning evaluation	Weightage	Activities of FOSSEE which can be included
Average percentage of full-time teachers who received awards, recognition, fellowships at State, National, International level from Government/Govt. recognised bodies during the last five years	10 Marks	Letter of appreciation, awards, recognition for mentoring, and good contribution to various FOSSEE activities like internship, fellowship, etc.
Criteria 3: Research, Innovations and Extension	Weightage	Activities of FOSSEE which can be included
E-content is developed by teachers	10 Marks	Spoken tutorial development or any other contribution where we list faculty members names too on our website along with the students
Extension activities in the neighborhood community in terms of impact and sensitising students to social issues and holistic development during the last five years	6 Marks	The workshops / FDPs conducted by the institutions using Spoken tutorial videos can be considered
Number of collaborative activities with other institutions/ research establishment/industry for research and academic development of faculty and	10 Marks	Supporting in Hackathons

PRINCIPAL
 Shree L. R. Tiwari College of Engineering
 Kanakya Park, Mira Road (E).

students per year		
Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual	30 Marks	Activities of the FOSSEE clubs in addition to the testimonials, videos given by the students to make them realize the use of the best practices with FOSSEE

Please refer, http://www.naac.gov.in/images/docs/Manuals/Revised-University-Manual_1.pdf for more details.

ATTENTION

FOSSEE Summer Fellowship 2023

FOSSEE invites applications for the FOSSEE Summer Fellowship 2023. The students get an opportunity to work with FOSSEE for approximately 2 months. This is a remote (tentatively) fellowship with support and mentoring by the FOSSEE team. To get shortlisted for the fellowship, select a project and choose a screening task from the table given below under **screening task details**. You need to complete **at least one of the screening tasks**. The selection will be purely based on the evaluation criteria of each screening task.

How to Participate?

Students who are selected for this Fellowship can be from any college, pursuing any degree, and at any stage of their graduation/ post-graduation. The only criterion for selection is the successful completion of a useful project. Students desirous of getting selected for this Fellowship have to learn Free/Libre and Open Source Software (FLOSS) and complete some screening tasks. These tasks can involve programming/ scientific computing/ conducting awareness workshops/ collecting data that will be of use to the community. These screening tasks are not very complicated and can be done over a period of two weeks.

Terms of Engagement: Remote (tentative) Full time / Part-time

Important Dates

Last date of Registration	07 April 2023
---------------------------	---------------

PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kanakya Park, Mira Road (E).

Submission period	31 March - 16 April 2023
Result announcement	24 April 2023
Commencement of the FOSSEE Summer Fellowship 2023	07 May 2023 (tentative)
Conclusion of the FOSSEE Summer Fellowship 2023	Mid July 2023

Registration and Selection Procedure

- To register Please select one of the projects from the table given below and fill out this form to register.
- The submitted task will be reviewed by experts/ mentors from the FOSSEE team.
- After the review, the top submissions will be selected. The results of the selected fellows will be displayed on the website.
- The fellows will get the flexibility to work full-time (8 hrs a day) or part-time (4 hrs a day) during the fellowship.

Benefit:

- Opportunity to work with faculty from IIT Bombay
- Certificate of Fellowship
- Recognition on the FOSSEE website

Note: At the end of the fellowship you may receive an honorarium depending on the quality of work.

Rules and Regulations

- Selected FOSSEE Fellows' names will be displayed on the FOSSEE website, alternately they shall also receive an email regarding the selection on their registered email id. So it is important to fill in the correct details in the registration form.

PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kanakiya Park, Mira Road (E).

- Once the Fellowship starts, every FOSSEE Fellow will be assessed every week based on the quality and quantity of the work. At any point, if the work is found unsatisfactory, the fellowship offer will be withdrawn.

Select the name of the project you are interested in. Please refer to the page for the list of available projects*

Workshop Proposal

TO,
The Principal,
SLRTCE, Mira Road (East),
Mumbai - 401107.

Subject: Permission for conducting a workshop on "Industry Connect with STM-32" for students in association with IETE-SF and ECSSA

Respected Sir,

We, Mrs. Aboli Moharil, Head of Department of Electronics And Telecommunication, SLRTCE and Mrs. Manjiri Gogate, Head of Department of Electronics and Computer Science would like to take your permission on behalf of the EXTC and ECS department for conducting a **one day workshop** on "**Industry Connect with STM-32**". We are conducting this workshop so that students can implement their Mini Project 2A and design application using STM-32 Core

Below are the tentative details of the event: -

Title of Workshop: Industrial Connect with STM-32

Planned Date: 14th Oct 2022

Duration: 1 Day

Target audience: SE, TE and BE students

Venue: Lab 410 and Lab 411

Name of the Speaker with designation: Prof. Umesh Bhadade, Vice Principal, SLRTCE

PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kanakia Park, Mira Road (E).

Shree Rahul Education Society's (Regd.)
SHREE L. R. TIWARI COLLEGE OF ENGINEERING
Kanakia Park, Near Commissioner's Bungalow, Mira Road (East), Thane 401107, Maharashtra
(Approved by AICTE, Govt. of Maharashtra & Affiliated to University of Mumbai)
NAAC Accredited | ISO 9001:2015 Certified
Tel. No.: 022-28120144 / 022-28120145 | Email: slrtee@rahuleducation.com | Website: www.slrtee.in

Objectives of Workshop:

- 1) To develop background knowledge of Embedded Systems.
- 2) To understand designing of embedded systems.
- 3) To understand use of wireless sensors/communications with Embedded systems.
- 4) To understand communication techniques.
- 5) To write programs for embedded systems and real time operating systems

Mapping with PO:

PO2	Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
PO3	Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
PO9	Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
PO12	Recognize the need for, and have the preparation and ability to engage an independent and life-long learning in the broadest context of technological change.

NAAC Accredited | ISO 9001:2015 Certified
Tel. No.: 022-28120144 / 022-28120145 | Email: slrtee@rahuleducation.com | Website: www.slrtee.in

Mapping with CO:

ECM501.2	Understand microcontrollers and programming in Embedded C.
ECM501.3	Implementation of Embedded systems with different sensors and peripherals.
ECM501.4	Implementation of Embedded systems with different communication protocols.
ECM501.5	Analyze concepts of Real time operating systems.
ELC601.1	Interface various sensors and actuators to embedded cores.
ELC601.2	Write code using RTOS for multi-tasking Embedded systems
ELC601.3	Design applications using different embedded cores

Expected Outcomes:

Students will be able to:

- 1) Understand designing of embedded systems.
- 2) Understand use of wireless sensors/communications with Embedded systems.
- 3) Understand communication techniques.
- 4) Write programs for embedded systems and real time operating systems.
