Installation of Bitcoin SV node

BSV is the native cryptocurrency of Bitcoin Satoshi's Vision (BSV), sometimes called Bitcoin SV: a blockchain created in 2018 after a hard fork from the Bitcoin Cash blockchain, which in turn was a hard fork of the original Bitcoin blockchain.

Prerequisites

- A machine with at least 16 GB of RAM and 500 GB of disk space for pruned node
- A machine with at least 16 GB of RAM and 16TB of disk space for unpruned node
- A machine with 4 core and 16 threads CPU
- A stable and fast internet connection
- Docker and Docker-Compose installed on your machine

Requirements

- Docker
- Node v12.22.12 2
It runs with the Node Package Manager (NPM), which is a repository of over 1 million open-source packages that can be easily installed and used in Node.js applications.

Step 1: Node installation On Ubuntu

```
```console
```

```
$ sudo apt install nodejs
```

```
$ sudo apt install npm
```

```
```
```

Other Operating Systems:

```
$ git clone https://github.com/bitcoin-sv/minerid-reference.git
```

```
$ cd minerid-reference
```

```
$ npm install
```

Step 2: Creating and editing config.json file

Example config.json file:

```
{
```

 Shree L. R. Tiwari
PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kandivli, Mira Road (E).

```
"port": 9002,  
"debug": false,  
"minerIdDataPath": ".minerid-client",  
"keystorePath": ".keystore",  
"revocationKeystorePath": ".revocationkeystore",  
"network": "livenet",  
"bitcoin": {  
  "rpcHost": "localhost",  
  "rpcPort": 8332,  
  "rpcUser": "bsvisbitcoin",  
  "rpcPassword": "bsvi'sbitcoin"  
},  
"authentication": {  
  "enabled": true,  
  "jwtKey": "ffffffffffffffffffffffffffffffffffffffffffffffffffffffffffffffff"  
}  
}
```

Step 3: Run API Server

```
$ npm start
```

Step 4: Run CLI

```
$ npm run cli  
$ npm test
```

Step 5: Build Docker Image

You can build the image yourself with your own modifications or own configurations.

```
$ docker build . -t minerid_reference:1.1.1
```

You can also pull it from the public Docker Hub repository for Miner ID

```
$ docker pull bitcoinsv/minerid:1.1.1
```

A handwritten signature in blue ink, appearing to be "S.S."

PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kanakgaur Park, Mira Road (E).

Step 6: Run the docker container

```
$ docker exec -it <CONTAINER> bash
```

```
[email protected]:/app#
```

Step 7: Run the cli commands to setup and configure the above

```
[email protected]:/app# npm run cli -- generateminerid --name testMiner
```

```
[email protected]:/app# npm run cli -- generatevctx --name testMiner
```

A handwritten signature in blue ink, appearing to be "S. S." or similar.

PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kanaka Park, Mira Road (E).

Installation of Celo node

Celo is an open-source blockchain platform that enables fast, secure, and low-cost financial transactions. In this article, we will discuss how to set up a node on the Celo network, which is a crucial step to participate in the network as a validator or observer.

Prerequisites

- A machine with at least 4 GB of RAM and 50 GB of disk space
- A stable and fast internet connection
- Docker and Docker-Compose installed on your machine

Requirements

- Docker
- Node v12.22.12
It runs with the Node Package Manager (NPM), which is a repository of over 1 million open-source packages that can be easily installed and used in Node.js applications.
- Git/GitHub 1
- Celo-cli 4
- Geth 3

Step 1: Clone the Celo repository

The second step is to clone the Celo repository from GitHub. Open a terminal window and run the following command:

```
$ git clone https://github.com/celo-org/celo-blockchain.git
```

Step 2: Pull the Celo Docker image

We're going to use a Docker image containing the Celo node software in this tutorial.

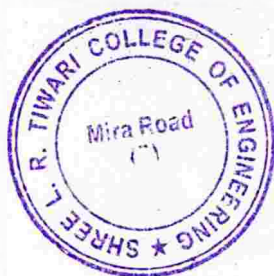

If you are re-running these instructions, the Celo Docker image may have been updated, and it's important to get the latest version.

```
docker pull $CELO_IMAGE
```

Step 3: Set up a data directory

```
mkdir celo-data-dir
```

```
cd celo-data-dir
```

A handwritten signature in blue ink, appearing to be "S. S.".

PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kanakiya Park, Mira Road (E).

Step 4: Create an account and get its address

```
docker run -v $PWD:/root/.celo --rm -it $CELO_IMAGE account new
```

It will prompt you for a passphrase, ask you to confirm it, and then will output your account address:
Public address of the key: <YOUR-ACCOUNT-ADDRESS>

Save this address to an environment variable, so that you can reference it below (don't include the braces):

```
export CELO_ACCOUNT_ADDRESS=<YOUR-ACCOUNT-ADDRESS>
```

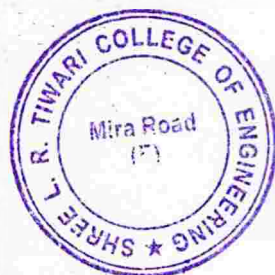

Step 5: Start the node

This command specifies the settings needed to run the node, and gets it started.

```
docker run --name celo-fullnode -d --restart unless-stopped --stop-timeout 300 -p 127.0.0.1:8545:8545-  
p 127.0.0.1:8546:8546 -p 30303:30303 -p 30303:30303/udp -v $PWD:/root/.celo $CELO_IMAGE --  
verbosity 3 --syncmode full --http --http.addr 0.0.0.0 --http.api eth,net,web3,debug,admin,personal --  
light.serve 90 --light.maxpeers 1000 --maxpeers 1100 --etherbase $CELO_ACCOUNT_ADDRESS --datadir  
/root/.celo
```

You'll start seeing some output. After a few minutes, you should see lines that look like this. This means your node has started syncing with the network and is receiving blocks.

```

Code Testing Report:

1.IPAV1_001 Display image location in Google maps :

Code Status: The code is compiled and tested in Google Colab with test urls commented in the code. The code only works for images having GPS in their Metadata.

2.IPAV1_002 Must be able to concatenate 2 videos:

Code Status: The code is compiled and tested in Google Colab, the code successfully contacts two given videos and creates a combined video which can be downloaded.

3.IPAV1_003 Extract the Timestamp & Analyze:

Code Status: The code is compiled and tested in Visual Studio, Pytesseract had issues compiling in the windows environment so EasyOCR was preferred. Certain changes to the EasyOCR code were needed for the final working of the code in the Windows environment. The output provides an XML and Text file.

4.IPAV1_005 Support extraction of images embedded in any file type (PDF, PPT, DOC):

Code Status : The code is compiled and tested in Google Colab .The code successfully extracts images in .png from .ppt/.pptx, .pdf or .doc/.docx files or returns "Invalid File Format" in case of invalid file format. The code creates a folder in input file location / path and adds the extracted images to the same.

5.IPAV1_006 Support different tracking methods (software assisted) and inverse selection:

Code Status: The code is compiled and tested in Visual Studio Code. Due to limited computational power the code appears to be running slow (it might work as expected with GPU). The code has been updated with the recent YOLO-NAS that outperforms existing yolo models. The output provides an XML file.

6.IPAV1_007 MUST support the grouping of annotations:

Code Status: The code is compiled and tested in Visual Studio Code. Due to limited computational power the code appears to be running slow (it might work as expected with GPU). The code has been updated with the recent YOLO-NAS model and DeepSORT to serve object-detection and tracking.

7. ANPR 1.0

AI model training and Dataset creation of training and testing the model. There are 4 sets of the Dataset, with images from Google and OLX.

15.

LETTER OF INTENT

Shree Rahul Education Society's (Regd.)

SHREE L. R. TIWARI COLLEGE OF ENGINEERING

(Approved by AICTE & DTE, Maharashtra State & Affiliated to University of Mumbai)
NAAC Accredited, NBA Accredited Program, ISO 9001:2015 Certified | DTE Code No. : 3423
Minority Status (Hindi Linguistic)

Ref. No. : SLRTCE/5369/22-23

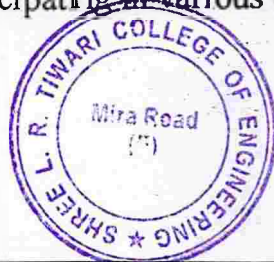

Date : 03/04/2023

Letter of Intent

Subject: Letter of Intent for setting up Development Center at SLRTCE in Association with Lab Systems (I) Pvt. Ltd.

CONTEXT

The grand Success of technical institute is driven by autonomy, accountability, and the availability of sustainable financing. Infrastructure improvements and the creation of centers of excellence serve as amplifiers. Educational attainment and student placement are process factors that are driven by the introduction of new programmes and their licensure, advancement in academic quality, research output, and improvement in the performance of academically underachieving students. The success metric for Higher Education Technical Institutes concentrates on Industry Link through consulting, whereby HEIs will engage Industry in addressing current issues. As of now, we are working the opposite way around with the industry providing us with knowledge dissemination in seminars, and workshops and aiding the institution by participating in various collegiate panels.

✍

Shree L. R. Tiwari College of Engineering
Principal
Kandivli Road (E) 3740

With the establishment of a cybersecurity lab in partnership with Lab Systems, a blockchain-based transcript system with Sapphirus Systems, and training for law enforcement agencies through Pal India Ltd., SLRTCE joined forces with industry to resolve their concerns.

Lab Systems (I) Pvt. Ltd. (LSIPL) is a team of engineering professionals committed to provide digital forensic solutions to clients across a broad spectrum of industries. It is one of the top distributors of world class computer forensic software tools like Encase, myFRT, Fast Bloc, Drac, MiniDrac, Magnet Software & many more. Lab Systems India Pvt. Ltd., and its affiliated companies are passionately committed to detect, Investigate and prevent fraudulent practices happening in corporate and government sectors.

Shree L. R. Tiwari College of Engineering, (SLRTCE) established in the year 2010, the first engineering college in Mira-Bhayandar, and since then has provided a sound platform, equipping students to stand on their own feet, visualize, grow and build a bright future in the evergrowing industry. The college offers 6 full-time UG courses leading to the degree of Bachelor of Engineering (B.E.) from the University of Mumbai and also offers Master of Engineering (M.E.) in Computer Engineering and Electronics & Telecommunication. All courses are approved by the All India Council for Technical Education (AICTE), New Delhi, Directorate of Technical Education (DTE), Maharashtra State.

LOI was signed between LSIPL and SLRTCE on 2nd August 2022 for setting up a live Bitcoin node and private Bitcoin setup for exclusive training to clients of LSIPL. LSIPL agreed to give a Consultancy of Rs.2Lakh + GST per annum for this activity with initial signing amount of Rs.1 Lakh + GST.

PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kandivli (E), Mira Road (E).

After ten months, the maturity has evolved with the following clear understanding:

- A solid collaboration amongst instructors and learners is vital, where the faculty leverages their in-depth conceptual knowledge of the subject to investigate the problem at hand and provide a clear road map for accomplishing the project's objectives.
- Students are incredibly quick to adopt the advance technology and provide businesses with innovative solutions.

PROPOSAL

This document proposes the establishment of a development center for Lab Systems India Pvt. Ltd (LSIPL) to cater to a wide range of business projects in a bid to move from an informal to a formal method of managing industrial projects.

OBJECTIVES

The development centre aims to

- Provide the trainees a workstation where they can partake in current initiatives.
- Provide SLRTCE students the opportunity to become involved in internships.
- Provide a solid technical knowledge base by educating students about the various cutting-edge technologies that businesses need.
- Create various initiatives based on hardware or software that are required by the industry and offer consulting services to businesses and other academic institutions.

PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kanakya Park, Mira Road (E).

DEVELOPMENT CENTRE

A team within an entity that is specifically dedicated to the advancement of novel methods, protocols, or innovations is known as a development centre. To promote innovation and spur economic growth, technological corporations, academic institutions, and governmental organizations frequently build development centers.

A team of subject matter specialists from different fields is often present in a development centre.

Role of the Institute:

- To facilitate the development centre for that project, the institution must implement a pre-assessment process.
- Consciousness of the work's ambit from enterprise. The industry itself must embrace of this scope.
- Identifying the requisite technological expertise context and analyzing if it is commonly accessible or can be absorbed quickly.
- Any gear, consumables, or equipment that must be procured, purchased, or contracted for this rationale must be accounted for by the industry.
- Any research costs or library dues must be covered by the industry.
- In the event of instructional projects, the institute is in charge of developing the curriculum and ensuring its effective implementation.
- Development of a thorough SRS document.
 - Based on the SRS document prepared, an anticipated timeframe for the project must be determined.

PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kanaky Road (E).

DEVELOPMENT CENTRE MANAGER'S PURPOSE

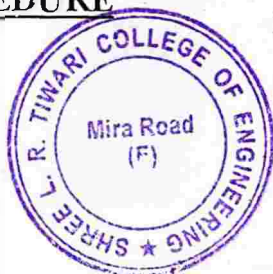

The Development centre manager will function as the single point of contact (SPOC) and report directly to the institution's director of operations (developmentcenter). Identification of resources, project discussions, and resource provision fall under the purview of the management.

- make sure that participants come from various academic departments of the college
- knowledge sharing among students in the event that final-year students are involved.
- The management and representatives from the industry will conduct routine joint project reviews.
- The management should choose the resources and organize the training session in the case of training assignments.

STUDENT'S RESPONSIBILITY

- The pupils are obligated to work on the project in accordance with the directions provided by the centre management and industry.
- Speak with the industry directly while keeping the manager informed.
- An effective on boarding procedure to ensure commitment for the duration of the project's life cycle.
- For successful information transfer, students are essential to provide hand holding to the junior batch.

THE ONBOARDING PROCEDURE

PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kanakya Park, Mira Road (E).

- The proper procedure should be followed, and all students throughout departments should be given a fair chance.
- A proper student selection procedure that includes interviewing candidates and creating trial layouts or models.
- Upon selection, students should demonstrate adequate dedication for the duration of the project.
- Attendance concessions are limited to 30% of total attendance.
- Students must sign an agreement promising to keep project details confidential.
- Students shouldn't contest the manager's choice on the distribution of work, money, or royalties. All legal authority rests with the centre manager.

FINANCIAL COMMITMENTS

- LSIPL will provide fixed remuneration of two lacs excluding any applicable tax to "Shree Rahul Education society" for development centre at SLRTCE. There will be advance payment of one month to start with centre as part of signing or agreement. LSIPL will pay every month before 10th day of the month.
- SLRTCE will allocate faculties and students for the project and will share remuneration with following guidelines.
- Depending on the size of the project for the development centre, industry will pay a specific sum to the college each month. To start with it will be two lacs Rupees.
- A part of this sum 30% ,will go to the college, and the remaining 70% will be split equally between the centre management and the students (20% to the manager, and 50% to the students). as applicable taxes.

Meeting was conducted on SLRTCE campus with Lab System senior professionals Mr.VinayVishwanath , Nanda Sir and Mr.SwapnilPatil on 7th February 2023. Interviews were also conducted for few students regarding internship.

The following problem statements were finalized:

1. Image processing filters for ICVPro
2. Video Analytics and object identification
3. Face matching
4. Number plate enhancement and prediction
5. IOT based sensor in warehouse
6. MrutyunjayDoot
7. UIPCAP requirement
8. Supply chain requirement
9. SOS sender with voice and image.

Letter of Intent

Subject: letter of Intent for setting up center for excellence lab at SLRTCE for Cryptocurrency investigation. In Association with Lab Systems (I) Pvt.Ltd.

Lab Systems (I) Pvt. Ltd. is a team of engineering professionals committed to provide digital forensic solutions to clients across a broad spectrum of industries. It is one of the top distributors of world class computer forensic software tools like Encase, myFRT, Fast Bloc, Drac, MiniDrac, Magnet Software & many more. Lab Systems India Pvt. Ltd., and its affiliated companies are passionately committed to detect, investigate and prevent fraudulent practices happening in corporate and government sectors.

Shree L. R. Tiwari College of Engineering, established in the year 2010, the first engineering college in Mira-Bhayandar, and since then has provided a sound platform, equipping students to stand on their own feet, visualize, grow and build a bright future in the ever-growing industry. The college offers 6 full-time UG courses leading to the degree of Bachelor of Engineering (B.E.) from the University of Mumbai and also offers Master of Engineering (M.E.) in Computer Engineering and Electronics & Telecommunication. All courses are approved by the All India Council for Technical Education (AICTE), New Delhi & Directorate of Technical Education (DTE), Maharashtra State.

Dr.Deven Shah, Principal SLRTCE is working on Blockchain Tech from 2017 and created expertise in cryptocurrency investigation. He have given various talks on the same topic at prominent agencies like National Forensic Science University, Commissioner Police office at Mira Bhayander etc.

Inspite of having the technical background as a academician there is a lacking of on field investigation expertise. In order to fill this gap SLRTCE has identify Lab Systems, who are into forensic investigation from last 20 years, supporting various law agencies across India. Lab Systems will give SLRTCE the opportunity to work on real time challenges of investigation.

SLRTCE will set up a live Bitcoin node and private Bitcoin setup for exclusive training to clients of Lab Systems. SLRTCE will create a team of students and faculty, which include Dr.Deven Shah ,Dr.Vikas Kaul and Prof.Pravin Jangid and few students to work on this technology and support Lab Systems.

Lab Systems (I) Pvt.Ltd will give a Consultancy of Rs.2 Lakh + GST per annum for this activity with initial signing amount of Rs.1 Lakh + GST.

Student Onboarding Procedure:

Onboarding students for a project is a crucial step in ensuring the success of the project. To onboard students effectively:

1. Clearly define the project goals and expectations: Provide a detailed explanation of the project, its goals, and the expectations you have from the students. This will help the students understand the scope of the project and their role in it.
2. Establish communication channels: Set up regular communication channels such as to keep everyone informed about the project's progress. Encourage students to ask questions and provide feedback.
3. Assign roles and responsibilities: Assign specific roles and responsibilities to each student based on their skills and interests. This will help them focus on their tasks and achieve their objectives.
4. Provide training and resources: Provide training and resources that students may need to complete their tasks effectively. This may include access to software, online tutorials, or other educational materials.
5. Set up a timeline and milestones: Establish a timeline and set milestones to measure progress and ensure that the project stays on track. Regularly review and adjust the timeline as necessary.
6. Monitor and provide feedback: Regularly monitor the students' progress and provide feedback. This will help them stay on track and make any necessary adjustments to their work.

Kanakpura, Mira Road (E).

Key responsibilities of Centre manager:

The centre manager is responsible for ensuring that the project is completed successfully, on time, and within budget while maintaining quality standards and managing the project team and stakeholders effectively.

As a project manager, some of the key responsibilities include:

1. **Planning and Defining Scope:** Project manager is responsible for defining the project scope and creating a detailed project plan. This involves identifying project goals, deliverables, timelines, and budgets.
2. **Resource Planning:** Project manager must determine the resources required to complete the project, including personnel, equipment, and materials. They must also allocate resources effectively to ensure that the project is completed on time and within budget. The student selection procedure should involve participation of students from all relevant branches.
3. **Risk Management:** Project managers must identify potential risks to the project and develop a plan to mitigate them. This involves developing risk management strategies and contingency plans to deal with unexpected events.
4. **Communication and Reporting:** Project manager must maintain open lines of communication with team members, stakeholders, and clients. They must also provide regular project updates and reports to ensure that all parties are informed of project status.
5. **Team Management:** Project managers are responsible for managing the project team, including hiring, training, and motivating team members. They must also delegate tasks effectively and ensure that team members are working together cohesively.

PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kanakya Park, Mira Road (E).

6. Budget Management: Project managers must manage project budgets and ensure that project expenses are within the approved budget. They must also track expenses and adjust the budget as necessary to ensure that the project remains on track.
7. Quality Management: Project managers must ensure that the project meets the required quality standards. This involves setting quality standards, monitoring quality throughout the project, and implementing quality control measures.
8. Knowledge Transfer: The Project manager is responsible for effective knowledge transfer from passing out students to the next batch of students for project continuation.
9. Documentation: Project manager should ensure that students working on projects maintain proper documentation of each project.

As a Centre manager, some of the key responsibilities include:

The Development centre manager will function as the single point of contact (SPOC) and report directly to the institution's director of operations (development centre) Identification of resources, project discussions, and resource provision fall under the purview of the management.

1. Resource identification and provision, project negotiations.
2. Ensure students across all departments are involved in the project.
3. Setting up regular communication channels between students and Lab Systems such as to keep everyone informed.
4. In case of Training assignments, the manager should identify the resources and plan the training exercise.
5. Financial disbursement every month to all stakeholders.

 PRINCIPAL
Shree L. R. Tiwari College of Engineering
Kanakya Park, Mira Road (E).

Student selection procedure:

Project managers are responsible for managing the project team, including hiring, training, and motivating team members.

1. Circulate notice with projects specific requirements amongst all departments.
2. Conduct technical interviews for shortlisting the students.
3. Lab Systems would conduct the next level of interviews for finalising the students.
4. Appointment Letters along with non-disclosure documents to be given to the selected students.

Project Resource Planning Document

Purpose: This project resource planning document outlines the resources required for the project, including personnel, equipment, facilities, as well as the project budget. The information provided in this document will serve as a reference for the centre manager and stakeholders to ensure that the necessary resources are available throughout the project's life cycle.

Project Title: ICVPro

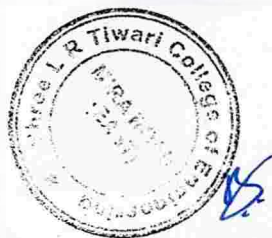

Project Description: Object detection.

Deliverables:

1. Support extraction of images embedded in any file type (PDF, PPT, DOC).
2. Support different tracking methods (software assisted) and inverse selection.
3. MUST support the grouping of annotations. Grouped annotations MUST be able to track object together.
4. MUST support playback of variable frame rate video based on presentation timestamps.
5. MUST have a color deconvolution filter to maximize the differences between specific colors in the image.
6. MUST be able to visualize the macroblock type and motion vectors from a MPEG based video.
7. MUST be able to superimpose a grid onto the image or video which is useful for compression estimation and other analysis.
8. MUST be able to copy the evidence files stored in an external removable device, verifying the match
9. between the source hash codes and the destination hash codes in order to check the integrity for a safe acquisition. MUST generate an automatic report of the action performed.
10. Enhancement of faces in an Image
11. Classify requirements related to audio & share.
12. Search for similar images on Google Images
13. Panaromic Camera Output
14. Test different Video CoDecs
15. Bookmark feature on timeline
16. Vehicle Number Plate Enhancement System

PERSONAL PROJECTS

MEDI-BLOCK

- It is simply blockchain based website based on **blockchain** design by using **Solidity**, **React.js** and **Javascript** which is stores the records securely and display the data in restricted mode.

Student Portfolio

- This application will bring you to a place where you can see the student's all details at a place. Teacher can easily take the attendance as well as can generates the student's defaulter list. Students can add or update their curriculum and extra-curriculum activity. I have created using **python(Tkinter)**, **mysql**.

Portfolio Website

- This website was created using **React.js** and **node.js** This website tells my own progress which project, design, and ppts that I have made.

Codeyantra Website

- It is a web based application which is created using **react.js**, **node.js** & **express.js**. It displays all the coming events and also recorded lectures. The Shimmer effect also added in the website.

TRAINING

Web Development Program
by Intershala

Achievements/Tasks

- In this, I have learned the front-end and back-end technologies like **HTML**, **CSS**, **BOOTSTRAP**, **JavaScript**, **PHP** and created a small PGLife project.

EDUCATION

→Shree L.R Tiwari College of Engineering (SLRTCE) | T.E, Computer Engineering

May 2023- Present

CGPA: 10.0/10.0

→Rizvi College of Arts, Science & Commerce | HSC

Percentage: 81.85%

→S.S Sahney High School | SSC

Percentage: 82.60%

TECHNICAL SKILLS

- Programming languages: C, C++, Java, Kotlin, Dart, Python, SQL, HTML, CSS, JavaScript.
- Software Tools/Framework: Android Studio, Flutter, PyCharm, Visual Studio, React JS.

INTERNSHIP/ WORK EXPERIENCE

Amazon | AWS Operations CS, Intern

June 2022 – July 2022

- Developed efficient Node.js Application which was running on AWS Ec2 instance created, connected to virtual database deployed on AWS cloud and configured the application to Reverse proxy using Nginx.
- It was able to provide an additional level of abstraction and control to ensure the smooth flow of network traffic between clients and servers.

PROJECTS AND COMPETITIONS

SIPHI | IIT Bombay ResCon | Aavishkar 22-23

Jan 2023 - April 2023

- Designed and developed SIPHI (Speech Improvement for People with Hearing Impairment) which would enable the deaf people to speak words and convey their emotions and feelings more clearly with normal people who don't know the sign language.
- SIPHI utilizes cutting-edge lip-sync animation and graphical voice representation to provide an immersive and effective learning experience.
- UI (User Interface) and prototyping was done in Figma at the initial stage and later on the initial version of the application was developed using Android Studio IDE where we used Kotlin as the main backend language and XML to implement the visual graphics on board.
- Our project was selected by IIT Bombay in ResCon 22-23 competition among the top 100+ abstracts.

MIBA | Smart India Hackathon (SIH) | SLRTCE

Feb 2022 - May 2022

- Conceptualized & Developed a Multi-Touch Image based Authentication System which is specially made for people suffering from Dyslexia. It was proven 8 times stronger than text passwords.
- The application was able to deliver two password schemes to user,
a) MIBA b) PASS-GO
- It was an Android Based Mobile Application, it was developed using Android Studio.
- Awarded 3rd prize for this project in Intra College SIH (Smart India Hackathon).

LEADERSHIP & INVOLVEMENT

- Chairperson of CSI (Computer Society of India) committee | SLRTCE
- Qualified for Podium Presentation Round among the top 100+ abstracts in ResCon 22-23 conducted by IIT Bombay.
- Organised META-SUMMIT 2022- 23 an Inter-College fest consisting of various events from technical to non – technical quiz, it also had Competitive Programming. I was leading as the Chairperson, 670 participants were actively present for this event.
- Awarded By Rotary Club for Constant Academic excellence.

May 2023 -Present

ACHIEVEMENTS

- Got global rank 236 in Starters 51 (Codechef).
- Scored Highest (10 CGPA) in SEM IV conducted by MUMBAI UNIVERSITY.
- Awarded 3rd prize for our project in Intra College SIH - 2022 (Smart India Hackathon).
- Runner-up at Arm-Wrestling Competition conducted on Carnival 2021/22 | SLRTCE.
- Rank 2 in Switch-Code Competition in Technical Fest conducted on Carnival 2022/23 | SLRTCE.

Mantasha Khan

Software Developer Engineer

Portfolio: mantashakhan.me
github.com/cloud-05
linkedin.com/in/mantasha0511/

To utilize my problem-solving proficiency, adapt to new frameworks, and follow the best project methodologies to innovate and implement creative ideas in software development. I aim to contribute to the organization's growth by delivering exceptional results and developing new skills more efficiently.

SKILLS

Tools and Languages Flutter, Kotlin, HTML5, CSS3, Flask, Python, C/C++, Bootstrap, PHP, MySQL, NLP, VS Code, Linux, Machine Learning, Artificial Intelligence, AWS, Google Cloud, Microsoft Azure.

Communication English, Hindi and Marathi.

TECHNICAL EXPERIENCE

FastFindFirm January 2023 - April 2023
Machine Learning Data Science Intern Mumbai, India

- Worked on various projects and tasks related to machine learning, including data collection, preprocessing, feature engineering, model selection, training, and validation.
- Developed and implement ML models for various tasks such as classification, regression, clustering, and natural language processing.
- Acquainted knowledge about various machine learning algorithms such as decision trees, logistic regression, random forests, support vector machines, neural networks, and deep learning models.

Amazon Web Services June 2022 - July 2022
AWS Intern Mumbai, India

- Worked on various projects and tasks related to AWS, including creating and managing AWS resources such as EC2 instances, S3 buckets, RDS databases, and Lambda functions.
- Collaborated with team members and stakeholders to develop and implement AWS solutions for various tasks such as cloud storage, data processing, and serverless computing.
- Worked with various AWS services such as AWS CLI, AWS SDKs, AWS CloudFormation, AWS Elastic Beanstalk, and AWS Lambda.
- Communicated technical concepts and findings to non-technical audiences.

PROJECT

Sakhii - All in One Women Safety App Sept. 2022 - Present
Source Code

- Built an all-in-one women's safety app using Flutter and Dart, with Firebase as a backend for easy data management and storage.
- Incorporated essential emergency features, including an offline siren, emergency calling to helplines, and a one-tap periodic location-sharing feature that uses Google Maps API to keep loved ones informed about the user's whereabouts.
- Implemented various Flutter dependencies, such as geolocator for location tracking, shake for vigorous shake detection and provider for state management, to ensure the app runs smoothly and seamlessly.

EngiBot - An AI-Based FAQ Chatbot For Engineering Colleges Feb. 2022 - April 2022
Source Code

- Developed an engineering college chatbot using Python libraries such as NLTK, PyTorch, NumPy, Flask, and TorchVision.
- Integrated the chatbot onto a website build using FrontEnd Technology, leveraging expertise in web development for a user-friendly interaction.
- Demonstrated strong problem-solving skills by identifying common questions and utilizing the DarwinCii 003 model for accurate and relevant answers, showcasing expertise in natural language processing, Python programming, and machine learning.

```

PROJECTS

Java Music Player (2021)

A simple music player created in Java using AWT and features basic functionality like play, pause, and playback speed.

Movie Recommendation System (2022)

Uses content based and collaborative based approach to recommend movies. Created with Angular and Flask.

Text Utilities (2022 - Current)

Collection of useful text tools for everyday tasks. Some features include pdf to text, extract text from image, pdf to word, summarization, text generation from keywords, spam detection, resume builder, etc.

Quick Reads (2022 - Current)

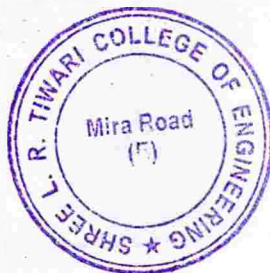

Abstractive text summarization using neural networks. Also include plagiarism detection, sentiment analysis, extracting words from images, searching news articles, and identifying fake news. More features coming soon.

Examination System (2022 - Current)

A fully featured MCQ examination platform created using Angular and Flask.

WORK EXPERIENCE

Rahul Educations Thane, Maharashtra
Web Developer, I-Kadambari Jan, 2023 – May, 2023

- I-Kadambari is a platform that empowers women in India.
- Developed and maintained WordPress websites, using various plugins and themes.
- Designed and customized website layouts and templates to match client specifications.

Rahul Educations Thane, Maharashtra
Summer Intern, Robotics Lab Aug, 2021 – Sep, 2021

- Learned the basics of embedded systems, robotics technology and mechatronics.
- Worked with Fire Bird V ATMEGA2560 model.
- Designed, developed, programmed and tested various tasks on the model.

PROJECT WORK

Utilizing Machine Learning Algorithms for Heart Risk Prediction Mumbai University June, 2022 – May, 2023

- Conducted exploratory data analysis on a large dataset, identifying key trends, patterns, and outliers using statistical methods and data visualization techniques.
- Developed and implemented a machine learning model achieving an accuracy of 91%
- Developed an end-to-end application using Flask, integrating the machine learning model into a user-friendly web interface

Smart Plant Monitoring System Mumbai University Aug, 2021 – May, 2022

- Developed a web dashboard for crop parameters like temperature, soil moisture and humidity.
- Worked with nodeMCU ESP8266, DHT11 and soil moisture sensor.
- Used Firebase for authentication, realtime database and hosting.

EXTRA CURRICULAR

Competitive Programming Head at CodeYantra July, 2022

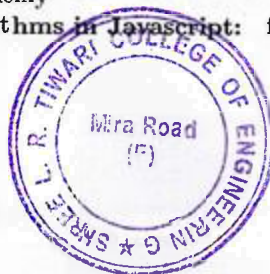

- Held coding competitions and lectures for students

Technical Head at CSI-SLR/TCE August, 2022

- Organised Events, Seminars, Webinars for CSI members

CERTIFICATION

Google Data Analytics Google — Coursera
AWS Cloud Foundation: Amazon
Introduction to Git and Github: Google — Coursera
Python Programming Masterclass Udemy
Advanced Data Structures and Algorithms in Javascript: freecodecamp

CAREER OBJECTIVE:

Hard-working, goal-oriented, and a team player seeking an opportunity to work in a fun and challenging working.

EDUCATION:

Bachelor of Engineering

2021-2024

Shree LR Tiwari College of Engineering ,Mira Road Thane

High School

2019-2020

Jai Hind College, Churchgate Mumbai

Secondary School

2015-2018

Don Bosco High School, Naigaon Thane

SKILLS AND ABILITY:

Great Communication, Team leader, Programming, Logical and Structured Thinking, Coding in multiple languages.

Programing Language known: C, C++, JAVA(BASIC), SQL

PRINCIPAL
Shree L. R. Tiwari Coll
Kanakya Park, Mira Road (E).

Achievements:

1. Achieved certificate in Problem solving, Assessment for skill in JAVA(BASIC) and SQL(BASIC) on HACKERRANK (Hackerrank id: kunalmishra12002)
2. 3star in code chef (Codechef id: utkarsh5m)

Project During Academic Year 2020-2021

Java Project Employee Management System

Personal Information:

Date of Birth: 15-11-2002

Father Name: Mr. Kashi Prasad Mishra

Language known: English, Hindi

Gender: Male

Marial Status: Single

Personal Traits

1. Quick Learning and Understanding the system.
2. Determination and Hardworking for achieving the goals.

Hobbies

Cricket, Running, Book Reading, Listening Music

Kanakiya Park, Mira Road (E).

Mrs. Leelasa Thakur

B-wing/15, Nirman Co-op HSG Society,
Near Chincholi Fatak, Oop HP Petrol pump, Malad [West] – 400064
Mob- 9324526992
Email Id: thakurleelasa@gmail.com

1. Career Objective:

- To work as a Front-end Developer as I have experience in JavaScript, HTML5, CSS/Bootstrap.
- To work as a Full-stack Developer as I'm experienced in languages like Java, HTML5, CSS, MySQL, and much more.
- To work as a UI/UX Designer as I know all the pre-requisites that are required in this field.

2. Education/ Qualification:

- Pursuing B.E in Electronics and Computer Science from Shree L.R Tiwari College of Engineering with average CGPA of 7.3
- Diploma in Computer Engineering from Thakur Polytechnic with aggregate of 89%
- ICSE from Seth Juggilal Poddar Academy School with 87.08 % (First class Distinction)

3. Internship:

• Worked as a trainee in Rely Ltd. From 1st May 2019 to 24th June 2019. • Key Skills that I learned:

- I. Interpersonal skills like: Leadership, Team-building, Communication, Public Speaking and many others.
- II. Technical skills like: PHP, HTML, and Databases.

4. Projects and papers published:

- Made a Matrimonia! website using HTML5, CSS, JavaScript, and PHP
- Made a personal portfolio website using HTML5, CSS, and JavaScript
- Made college's clone website using HTML5, CSS, and JavaScript
- Made a Website For a College Project Using HTML5, CSS, and JavaScript ,PHP and Bootstrap.

github.com/naman833
linkedin.com/in/naman833

To leverage my strong problem-solving skills, adaptability, and commitment to best practices in software development to drive innovation and deliver exceptional results for the organization. By staying current with emerging frameworks and project management methodologies, aim to continuously improve my skills and make valuable contributions to the organization's growth and success.

SKILLS

Tools and Languages Flutter, Kotlin, HTML5, CSS3, Flask, Python, C/C++, Bootstrap, PHP, MySQL, NLP, VS Code, Machine Learning, Artificial Intelligence, Linux, AWS, Google Cloud, Microsoft Azure.

Communication English, Hindi and Marathi.

TECHNICAL EXPERIENCE

FastFindFirm January 2023 - April 2023
Machine Learning Data Science Intern Mumbai, India

- Worked on various projects and tasks related to machine learning, including data collection, preprocessing, feature engineering, model selection, training, and validation.
- Developed and implement ML models for various tasks such as classification, regression, clustering, and natural language processing.
- Acquainted knowledge about various machine learning algorithms such as decision trees, logistic regression, random forests, support vector machines, neural networks, and deep learning models.

Amazon Web Services June 2022 - July 2022
AWS Intern Mumbai, India

- Worked on various projects and tasks related to AWS, including creating and managing AWS resources such as EC2 instances, S3 buckets, RDS databases, and Lambda functions.
- Collaborated with team members and stakeholders to develop and implement AWS solutions for various tasks such as cloud storage, data processing, and serverless computing.
- Worked with various AWS services such as AWS CLI, AWS SDKs, AWS CloudFormation, AWS Elastic Beanstalk, and AWS Lambda.

PROJECT

Sakhii - All in One Women Safety App Sept. 2022 - Present
Source Code

- Built an all-in-one Women's safety app using **Flutter** and **Dart**, with **Firebase** as a backend for easy data management and storage.
- Incorporated essential emergency features, including an **offline siren**, **emergency calling** to helplines, and a **one-tap periodic location-sharing** feature that uses **Google Maps API** to keep loved ones informed about the user's whereabouts.
- Implemented various Flutter dependencies, such as **geolocator** for location tracking, **shake** for vigorous shake detection and **provider** for state management, to ensure the app runs smoothly and seamlessly.

EngiBot - An AI-Based FAQ Chatbot For Engineering Colleges Feb. 2022 - April 2022
Source Code

- Developed an engineering college chatbot using Python libraries such as **NLTK**, **PyTorch**, **NumPy**, **Flask**, and **TorchVision**.
- Integrated the chatbot onto a website build using **FrontEnd Technology**, leveraging expertise in web development for a user-friendly interaction.
- Demonstrated strong problem-solving skills by identifying common questions and utilizing the **DarwinCii 003 model** for accurate and relevant answers, showcasing expertise in **natural language processing**, **Python programming**, and **machine learning**.

PROJECT EXPERIENCE

Health Monitoring System

(ESP32, Arduino IDE, C++, Blynk)

- Developed expertise in IoT environment management, leading to the development of innovative solutions.
- Implemented Node MCU into the development process.
- Coordinated and directed project workflow for my team resulting in the timely completion of a complex project within stipulated time.

Text Extraction from Image using OCR

(Image processing, python)

- Gained a solid understanding of fundamental concepts and techniques used in image processing.
- Manipulate and analyze images using Python, MATLAB, and become proficient in libraries and frameworks like OpenCV, PyTesseract, or TensorFlow, which are commonly used for image processing tasks.
- Experiment with new algorithms or approaches, and find unique solutions to image processing challenges.

Accident Identification and alerting system

(STM32, Arduino IDE, C++)

- Gained hands-on experience in programming and working with hardware at a lower level, understanding the interaction between software and hardware components.
- Proficient in writing efficient and optimized code, understanding low-level concepts, managing memory, and working with pointers.
- Utilizing these libraries and frameworks, such as STM32CubeHAL and STM32CubeMX, which provide middleware, drivers, and example code for various peripherals and RTOS integration.

SKILLS AND LEADERSHIPS

Programming languages: Python, Java, C, C++, Verilog

Microcontrollers: ESP32, Arduino, Raspberry pi version 3 and 4, FPGA, NodeMCU, STM32

Positions: IETE Head (2021-2022) and Chairperson (2022-2023)

Training and Placement Cell: ~~Content Manager~~ (2022-2023)

Software: MATLAB, Xilinx, Microwind, Esim

SUMMARY

An independent and Self-motivated person looking for an Intern position where I can utilize my extensive knowledge. I have a positive mind and good ability to adapt and create stable environment around me. Enthusiastic Student with superior skills in working in both Teams-based and independent capacities. Bringing strong work ethic and excellent organizational skills to any setting.

EXPERIENCE

Telecommunication Intern, 12/2022-01/2023

In-campus - Thane, India

- Enhanced my knowledge about 5G communication.
- Prepared a project to understand the concept more deeply.
- The project defines the application of 5G by connecting it with AI and ML.

Cybersecurity Intern, 01/2023-02/2023

In-campus - Thane, India

- Learned about latest security Threats from blogs and online publications
- Prepared a project to enhanced my new skills.
- Mentored people about the phishing attacks, which is in a huge number nowadays.

विषय :- **Crypto Currency Fraud Investigation** या विषयावर मार्गदर्शन करण्याकरीता उपस्थित राहणेबाबत

महोदय,

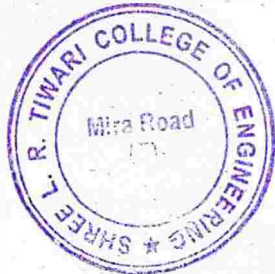

मिरा-भाईदर, वसई-विरार पोलीस आयुक्तालय नव्याने कार्यान्वित झालेले आहे, तसेच पोलीस आयुक्तालयामध्ये सद्यस्थितीत १६ पोलीस ठाण्यांचा समावेश आहे.

सद्याच्या काळामध्ये क्रिप्टोकरन्सीमध्ये व्यवहार करण्याचे प्रमाणात वाढ झाल्याचे दिसून येत आहे, क्रिप्टो करन्सी हे आभासी चलन असल्याने त्यासंदर्भातील तपास करणे तांत्रिकदृष्ट्या आव्हानात्मक व विल्लष्ट स्वरूपाचे असते अशी एकंदरीत धारणा आहे. आपण क्रिप्टोकरन्सीमध्ये केलेले काम सर्वश्रुत आहे, आपल्या अनुभवाचा उपयोग पोलीस अधिकारी यांना क्रिप्टोकरन्सी फसवणूकीच्या गुन्हाच्या तपासामध्ये उपयोगी ठरेल,

तरी आपण दिनांक २१ जुलै, २०२२ रोजी (सकाळी १०.०० ते १२.३० वाजे पावेतो) पोलीस आयुक्तालयातील पोलीस अधिकारी यांना **Crypto Currency Fraud Investigation** या विषयावर मार्गदर्शन करण्याकरीता उपस्थित राहावे, ही विनंती आहे.
