## About SLRTCE

Shree L. R. Tiwari College of Engineering (ISO certified), established in the year 2010, was the first engineering college in Mira-Bhayandar, and since then has provided a sound platform, equipping students to stand on their own feet, visualize, grow and build a bright future in the ever-growing industry. The college offers 6 full-time UG courses leading to the degree of Bachelor of Engineering (B.E.) from the University of Mumbai and also offers Master of Engineering (M.E.) in Computer Engineering and Electronics & Telecommunication. All courses are approved by the All India Council for Technical Education (AICTE), New Delhi & Directorate of Technical Education (DTE), Maharashtra State.

## About the Bridge Course

To accomplish goal of Learning the Core Programming, Object Oriented Programming, software development, web application and windows application, and relation Data base management system and understand the data base connection methods.

## Details of Participants

Students of Third year and final year from Department of Mechanical Engineering, Shree. L. R. Tiwari College of Engineering

## Bridge Course Objectives

The student shall be able to enhance Holistic Development of students and to improve their employability skills.

**PRINCIPAL**

**Shree L. R. Tiwari College of Engineering**  
Kanakiya Park, Mira Road (E).

## Bridge Course Outcomes

The student shall be able to

- To develop the Core Programming Object Oriented Programming, software development, web application and windows application and relation Data base management system and understand the data base connection methods.
- To develop student Knowledge in various robot structures and their work space.
- To develop students' skill in spatial transformation associated with rigid bodies motion

All courses are approved by the All India Council for Technical Education (AICTE), New Delhi & Directorate of Technical Education (DTE), Maharashtra State.

## About the Bridge Course

This course is a systematic course designed to bridge the gap between professional courses in engineering & human values. The duration of the course is 30 hours.

## Details of Participants

Students of second year, third year and final year from Electronics Department, Shree. L. R. Tiwari College of Engineering

## Course Objectives

The student shall be able to

- To understand the concept of Ethics in Engineering & Human Values: Aura.
- To realize the complete picture of your aura looks like.
- To imbibe the various colors of the aura mean and say about you.
- To indoctrinate value education in our students so that they remain committed to professional ethics and responsibilities relevant to professional engineering practice.

**PRINCIPAL**

Shree L. R. Tiwari College of Engineering  
Kanakiya Park, Mira Road (E).

- To address graduate attribute 6, 7, 8,9,10 related to professional engineering practice
- Sustainability, ethics, teamwork and communication.
- To inculcate qualities like cooperation and team building to function effectively as an individual and as a member in teams and in multidisciplinary settings.

## Course Outcomes

The student shall be able to

- Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- Develop a good moral character and social attitude.
- Determine the proper use of engineering knowledge to bring uplift in quality of life, along with peace.
- Responsibilities relevant to professional engineering practice.
- Cultivation of trust and cooperation in team building Developing effectiveness and self-management.

All courses are approved by the All India Council for Technical Education (AICTE), New Delhi & Directorate of Technical Education (DTE), Maharashtra State.

## About the Bridge Course

In today's world, there is a dire need for professionals with ethics and moral values. Society needs educated people with good character. Today's engineering education is as much about building character as it is about equipping students with specific skills. The social studies suggest that values-based education can strengthen students' self-esteem, optimism, and commitment to personal fulfillment; and help students exercise ethical judgment and social responsibility. Parents also expect schools to help students understand and develop personal and social responsibilities. This course is designed with all the above considerations.

## Details of Participants

Students of second year and final year from Department of Computer Engineering, Shree. L. R. Tiwari College of Engineering.

## Bridge Course Objectives

The student shall be able to

The college offers 6 full-time UG courses leading to the degree of Bachelor of Engineering (B.E.) from the University of Mumbai and also offers Master of Engineering (M.E.) in Computer Engineering and Electronics & Telecommunication. All courses are approved by the All India Council for Technical Education (AICTE), New Delhi & Directorate of Technical Education (DTE), Maharashtra State.

## About the Bridge Course

It is a systematic process used to evaluate the potential environmental effects of proposed projects, policies, or activities before they are carried out. The primary goal of an Environmental Impact Assessment (EIA) is to identify, predict, and mitigate potential adverse impacts on the environment and human health, while also considering socio-economic aspects.

According to this perspective, EIA is organized by Department of Civil Engineering of Shree L R Tiwari college of engineering (SLRTCE) to give practical knowledge exposure to civil engineering.

## Details of Participants

Students of second year and third year from Shree L. R. Tiwari College of Engineering

## Bridge Course Objectives

The student shall be able

- To use of EIA for various projects.
- To monitor and mitigation of Impacts.
- To perform EIA for various projects.

**PRINCIPAL**

Shree L. R. Tiwari College of Engineering  
Kanakiya Park, Mira Road (E).

- To perform Environmental Auditing process.
- To learn laws related to EIA and auditing in India.

## Bridge Course Outcomes

The student shall be able to

- Prepare portions of environmental documents through administrative and legal requirements and standards of professional practice.
- Participate in interdisciplinary environmental report preparation.

Shree L. R. Tiwari College of Engineering (ISO certified), established in the year 2010, was the first engineering college in Mira-Bhayandar, and since then has provided a sound platform, equipping students to stand on their own feet, visualize, grow and build a bright future in the ever-growing industry. The college offers 6 full-time UG courses leading to the degree of Bachelor of Engineering (B.E.) from the University of Mumbai and also offers Master of Engineering (M.E.) in Computer Engineering and Electronics & Telecommunication. All courses are approved by the All India Council for Technical Education (AICTE), New Delhi & Directorate of Technical Education (DTE), Maharashtra State.

## About the Course

This course structure allows for a comprehensive exploration of interpersonal skills, professional values, communication, problem-solving, and attitude re-engineering, while providing opportunities for practical application and assessment.

## Details of Participants

Students of Shree. L. R. Tiwari College of Engineering

## Course Objectives

The student shall be able to

- To develop interpersonal skills and be an effective goal oriented team player.
- To develop professionals with idealistic, practical and moral values.
- To develop communication and problem solving skills.
- To re-engineer attitude and understand its influence on behavior.

## Course Outcomes

The student shall be able to

- Navigate conflicts effectively and contribute positively to group dynamics.
- Integrate theoretical knowledge with practical applications, fostering a well-rounded professional approach.
- Use effective communication to collaborate on problem-solving within a team environment.
- Understand the connection between attitude, motivation, and overall success in personal and professional endeavors.

## About SLRTCE

Shree L. R. Tiwari College of Engineering [SLRTCE], established in the year 2010, was the first engineering college in Mira-Bhayandar, and since then has provided a sound platform, equipping students to stand on their own feet, visualize, grow and build a bright future in the ever-growing industry. The college offers 6 full-time UG courses leading to the degree of B.E from the University of Mumbai and also offers M.E. in Computer Engineering and Electronics and Telecommunication from the University of Mumbai.

## About the Add on Course

5G Communication is a systematic course organized by the Department of Electronics and Telecommunication Engineering to introduce basic concepts of communication to the students and make them aware about 5G Technology. The sessions will start with Basics of Communication and cover various topics like Concepts of Wireless Communication and evolution of Cellular communication from 1G to 4G. The comparative study of 1G to 4G will be discussed. Then concepts and 3GPP standards of 5G were introduced. Hands-on training on Matlab will be given to understand various concepts of 5G.

## Details of Participants

Students from Department of Electronics and Telecommunications, Shree. L. R. Tiwari College of Engineering

**PRINCIPAL**

Shree L. R. Tiwari College of Engineering  
Kanakiya Park, Mira Road (E).

## Add on Course Objectives

The student shall be able to

- Understand the definition and significance of the Internet of Things
- Develop knowledge and critical understanding of applications of the IOT system.

## Add on Course Outcomes

The student shall be able to understand the

- The building blocks of the Internet of things and characteristics.
- Apply skills to conduct interfacing of embedded with components.
- Simulation of basic building blocks of 5G

## About SLRTCE

Shree L. R. Tiwari College of Engineering (ISO certified), established in the year 2010, was the first engineering college in Mira- Bhayandar, and since then has provided a sound platform, equipping students to stand on their own feet, visualize, grow and build a bright future in the ever-growing industry. The college offers 6 full-time UG courses leading to the degree of Bachelor of Engineering (B.E.) from the University of Mumbai and also offers Master of Engineering (M.E.) in Computer Engineering and Electronics & Telecommunication. All courses are approved by the All India Council for Technical Education (AICTE), New Delhi & Directorate of Technical Education (DTE), Maharashtra State.

## About the Bridge Course

Today's engineering education is as much about building character as it is about equipping students with specific skills. Panch means five and kosh means sheath. According to the Upanishads, the entire body is covered by five walls which are called Kosh or sheaths. These five sheaths cover the soul which is why we identify ourselves as the body and aren't acquainted with our real identity (soul). Due to identifying ourselves as the body we run helter-skelter in search of physical enjoyments and experience all the Mayic vices. A soul has a mind, an

intellect, 5 karmendriyan and 5 gyanendriyan, a gross material body, and the panchpran. Trisharir is one way of grouping them in 3 bodies which are eternally associated with a material jeev. Panchkosh groups the same components slightly differently.

## Details of Participants

Students of second year and final year from Department of Computer Engineering, Shree. L. R. Tiwari College of Engineering

## Bridge Course Objectives

The student shall be able to

- To understand the concept of Human Values karmendriyan and gyanendriyan.
- To realize the significance of Self-development.
- To imbibe the knowledge, attitudes, and skills needed to achieve and sustain a global culture of peace and values.
- To inculcate qualities like cooperation and team building to function effectively as an individual and as a member in teams and in multidisciplinary settings.

## Bridge Course Outcomes

The student shall be able to

- develop a good moral character and social attitude.
- rejuvenates and calms your mind, body, and soul.
- paves the way for better creativity and improved awareness. Gives you a deeper insight into various levels of existence.

The college offers 6 full-time UG courses leading to the degree of B.E from the University of Mumbai and also offers M.E. in Computer Engineering and Electronics & Telecommunication from the University of Mumbai.

## About the Value Added Course

This course is a systematic course designed to inculcate ethical and moral values in professionals along with technical skills. The duration of the course is 30 hours.

## Details of Participants

Students of second year and third year from Department of Electronics and Telecommunications Engineering, Shree. L. R. Tiwari College of Engineering

## Value Added Course Objectives

The student shall be able to

- To understand the concept of Mind Control in Engineering and Human Values.
- To realize the significance of Mind Control in self- development.
- To learn to open the mind to understand and accept one's flaws along with acknowledging the good things within.
- To study the exercises to experience the real change which can change one's life.
- To cultivate qualities like sustainability

**PRINCIPAL**

Shree L. R. Tiwari College of Engineering  
Kanakiya Park, Mira Road (E).

- To inculcate qualities like cooperation and team building to function effectively as an individual and as a member in teams and in multidisciplinary settings.

## Value Added Course Outcomes

The student shall be able to

- Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- Develop a good moral character and social attitude.
- Determine the proper use of engineering knowledge to bring uplift in quality of life, along with peace.
- Responsibilities relevant to professional engineering practice.
- Cultivation of trust and cooperation in team building developing effectiveness and self-management.
