DEPARTMENT OF HUMANITIES & APPLIED SCIENCES

A REPORT ON STUDENT INDUCTION PROGRAMME

Part 1 Orientation

A one day online orientation programme for newly admitted first year students was organized by Shree L. R. Tiwari College of Engineering on 2nd February 2021. Respected Principal of the college, Dr. S Ram Reddy on behalf of respected Chairman, Shri Lallan Ram Tiwari, Secretary, Shri Rahul Tiwari, and Joint Secretary, Smt. Krishna Tiwari addressed and welcomed all new students and their parents with valuable and motivational speech describing the merits and achievements of the Rahul Education Society. Through his words he envisaged the entire

forthcoming journey of an engineering student towards a successful and well-established position or career in his/her life. He congratulated all newcomers for stepping into the world of engineering. He also encouraged them to feel comfortable for online teaching learning during a pandemic situation. He filled positive and constructive attitudes among students to face present pandemic challenges and inspired them to overcome the hardships of the time and enthused them for the normal situation. He talked about the importance of all subjects to complete the course

along with the necessity to foster values among students through value education program “Science is all about knowing and Engineering is all about doing” with these words he assured the students that they would get all the opportunities to grow academically and professionally through classroom practices, professional training programme, research activities and participation in various technical and cultural events. He wished all the best to all first year students to achieve good academic heights and great professional developments.

The IQAC Director and Dean of Research and Development Cell of the College, Dr. Anju Arya started her speech with the Vision and Mission of the IQAC (Internal Quality Assurance Cell) of the college. She directly emphasized the quality education that is being imparted to the students at the Institute. While describing the logo of IQAC which symbolically reveals “excellence in education without compromising the culture, and being down to earth with knowledge” she made students aware about the importance of excellence of knowledge and quality education. She spoke about outcome based education or student centric education and shared that the institute is attempting to go for NBA Accreditation after getting NAAC accreditation. She elaborated the importance of research for the students in this dynamic technical world.

She listed all the achievements of the R & D cell of the college. The college has got collaboration with IIT Bombay and set up its e-YANTRA lab in 2020. Four teachers of the college were trained under IITians to guide our students in Robotics fields and other technical fields. She also mentioned that with the collaborative efforts of our students and teachers the

college has received grant for 10 minor projects from University of Mumbai. Besides this, she acquainted first year students with various research activities and development programmes being conducted in the college for the betterment of the students viz: Institute as a Nodal centre for virtual lab, Setting of E yantra Lab Internship programme with collaboration with many companies, ASSOCHAM GIST, NMEICT Datagami Infovision Apart from this she also shared informations about Project Competition innovation, Coursera Certification Course virtual labs, Unnat Bharat Abhiyan , Incubation centre.

Mr. Dhaval Shah -- A multifaceted professional having twenty five years of experience in developing and reviewing the business development strategies across many domains. He played a pivotal role as CEO for Oracle exa data for the engineering system. He guided students with his excellent knowledge. He gave detailed information of IBM and its scope. He talked about IBM Collaboration Course and made students aware about tremendous knowledge gained through the course IBM ICE, IBM innovation Centre for Education. He gave a detailed introduction of IBM, the most innovative and patron creating companies, has 4 lakh employees working in 170 companies throughout the world.

He said that it is a very good effort that the management of SLRTCE has brought a two year program IBM course to the students and he also advised students not to miss it. This course is

based more on practical knowledge rather than theoretical. He made students aware that thousands of students nationwide have enrolled in 30 plus universities assuring 95% chance of placement. Moreover through his words he made students learn how to align themselves with this fast moving technological world and grab the appropriate opportunity at the right time.

The last session of the orientation was conducted by Mr. Praveen Jangid, Assistant professor Department of Computer Science. The session was quite informative and useful for our new comers who are completely going for online teaching learning practices during the pandemic situation. A detailed information along with practical use of Googleclassroom – one of the most appropriate tools of online teaching was perfectly and elaborately given by Prof. Praveen Jangid.

All the sessions were a great help to all first year engineering students. They really enjoyed the sessions and received much needed information to get familiar with the new learning environment. This was indeed a great success for the First Year Department too, which has to run all the academic activities smoothly throughout the semester.
